clearguard 11

Features:

- High precision molding allows for unparalleled tactile response.
- Made with durable, non-toxic engineering-grade thermoplastic urethane.
- Completely washable and reusable.
- Measures 0.1mm thin (one-fifth the thickness of silicone protectors).

the thinnest & clearest keyboard protector

Protect your valuable MacBook against spills, dust, and other contaminants without any annoying keypad interference. Moshi's ClearGuard is made with an advanced high precision material that form fits to the MacBook keys. This allows for comfortable typing while providing maximum protection.

ClearGuard is unique in that it is one fifth of the thickness of other silicone protectors, granting unparalleled key sensitivity and response. ClearGuard is also highly transparent making it visually unobtrusive, preserving the unrivaled look and feel you expect of your MacBook.
